gambit 49

is written, edited and published by Ted White, 380, 49th St., Brooklyn, N.Y., 11220, for Apa F. For once it will not be run off on the QWERTYUIOPress -- I'll be using Mike's machine at the FISTFA meeting. =APA F mlg. 1=

ELEGY

Yes, just as Dave said in FIRST DRAFT, MINAC is dead. There will be one more issue, the final issue, sometime. (It's over half-stencilled, so it shouldn't take forever...) My interest in genzine pubbing has been waning for several months now -- the Boondoggle stuff has been pretty unpleasant; I've been fanning more and enjoying it less -- and recent personal upheavals have pretty much decided me to cut down my fanac to the bare minimum outside of personal-contact fanning -- like Apa F...

MINAC's regular features will be appearing in BEARDMUTTERINGS, though, so don't any of you start grabbing for them.
