SWEDEN'S LAST PAPER-BACK S-F SERIES IN TROUBLE

VALLINGBY, 22 January, (CNS) - We were

informed today that Sweden's last paper-

back s-f series, "Eymdbockerna" (THE

SPACE BOOKS), issued 6-weekly by Wenner-

bergs Publishers, Stockholm, is in

trouble, and may have to fold with its

20th issue. No. 19, Poul Anderson's WAR

OF THO MORIDS, is now on the stands. No.

20 will be out in April, and the pub-

lishers want to see a report of the sale

of No. 19 before No. 20 will be issued.

No. 20 will be D. Osborn's ALIENS FROM

SPACE. The publishers haven't made up their mind to continue the series after

No. 20, There is no secret a n y more that science-fiction isn't selling well

in Sweden. While Swedish fandom is in a

wowe owned to define woll

and letters, etc. for inspection.

SWEDISH SCIENCE-FICTION NEWS

The defenants were represented at-

father of the plaintiff.

Great American Jo Publish FEAR

NEW YORK, 25 January, (CNS) - The Great American Publishing Company, that took over Fantastic Universe last October, and recently put out the first British Roprint s-f mag in the United States with New Worlds, will soon enter the field of weird-horror-fantasy.

The editor of this mag will be Joe Marks; the name of the magazine will be Fear! It will contain mostly modern weird and light horror with a dash of The magazine will NOT be a fantasy, monster mag, but . a try at a modern weird combination. It will be digest-size, 35¢, 128 pages, a n d be published bimonthly at first, with the hope of monthly publication if it goes over. It will contain a full colored cover, the There will be some first one by Keith. interior illustrations, but not many.

The magazine will "hit" the stands about the 1st of March 1960, and will be dated May 1960.

Outside of one reprint, a "Horror-Classic", it will contain all new material.

# LATEST NEWS ON THE "KYLE VS RAYBIN-DIETZ LAWSUIT"

BRONX, 18 January, (CNS) - Today, the examination before trial of the defend-

ants in the \$35,000 Lawsuit prought by	"boom", the pro mags aren't doing werr
David A. Kyle against George Nims Raybin	any more. Last year, another of Sweden's
and Franklin M. Dietz, Jr. was held at	paper-backs "Atomboken" (THE ATOMIC
the Supreme Court, Bronx County.	BOOK!) published by Elanders of Gothen-
This was the first time the parties	burg folded due to bad sales. I think

TIS IN PITTSBURGH IN 1960 THE "PITTCON"

### Science-Fiction Times

### PAGE 2

the reasons for the bad sales was because of the trash they were trying to sell. "Atomboken" reprinted novels from the British super-space operas, 'worst things I've seen. A Swedish fan, Gabriel Setterborg, also wrote one novel for them, h e used the penname "Eric Crane", and -- i n order not to differ from the other novels published in the series -- h e had t o write a trashy "space-opera" himself. (H e can write good science-fiction too, h e's sold short stories to Hapna, Swedish Galaxy, the slicks, etc.).

### SWEDISH "HUGO" AWARDS

Sweden now has its own "Hugo" award, sponsored by the Swedish fan mag "SF nytt" edited by Dam Lundwall. Sam has, by the way, sold some shorts to Hapna. Only one award will be out each year. It will be given to the "Best Fan of The Year".-So far the award has no name, but it he first will be introduced at this year's Swedish Convention.

AUSTRALIAN SCIENCE-FICTION NEWS

by Graham Stone

The Futurian Society of Sydney was inaugurated at a meeting held on the 5th of November 1939. The twentieth anniversary was marked by a meeting on the 5th November 1959. Regular meetings have notbeenheld since 1955, all business being done by the executives, meeting informally as required. It was decided to resume meetings of local Members and Associates in 1960. Meanwhile, th e Society's postal library is flourishing. Membersnip stands at 68, mostly non boting Associates outside Sydney.

The meeting considered proposed publications of the Society, and approved publication of the long projected Index to British Science Fiction Magazines, to be produced in mimeographed form. A small journal, Notes and Comment, will be published irregularly for members.

Graham Stone was re-elected Secretary and Librarian; Vol Molesworth Director; and Alan South Treasurer.

The meeting discussed the International Science Fiction Society, and approved the movement. The FSS will continue representing this body in Australia as Australian Branch Office.

Science Fiction Center, postal dealers in second-hand s-f mainly, now have a city office, at 96 Phillip Street, Sydney. Overseas readers may be interested in contacting them for Australian science-fiction, plenty of which is in stock.

So far no other U.S. s-f magazines have appeared on newsstands here except Fantastic and Amazing, though a fair number of pocketbooks are coming in. So far, I have not seen one hard cover s-f book from the U.S. either, i n any bookshop here.

SCIENCE-FICTION FORECASTS

Coming Up Next In The Pros

GALAXY MAGAZINE -- June 1960 Book-Length Novel - First Of Two Parts: DRUNKARD'S WALK by Frederik Pohl. Novelets: TRANSSTAR by Raymond E. Bamks, IN-SIDE JOHN BARTH by William W. Stuart. THE SCIENCE-FICTION MAGAZINE RECORD

by W. R. Cole

SCIENCE/FANTASY MAGAZINES PUBLISHED IN THE UNITED STATES DURING JANUARY 1960:

1960 might prove to be one of the most interesting year to follow since 1953 when the magazine boom took hold . The recent change of publishers of Astounding Science Fiction and especially the gradual change of title to Analog Science Fact Fiction (see S-F Times No, 326) might have a drastic effect on the field. After all, ASP has been the leading science-fiction magazine for at least the last twenty-wears and these changes will be interesting to watch. The think that science-fiction readers will not take this new name easily. The name will remain Astounding Science Fiction to the people who go to the corner newsstand for a copy, The name Analog will take a long time to sink in.

Another interesting development thits took place in the magazine field in January was the publication of New Worlds Science Fiction here in the U.S. This magazine, in the original British edition, is the third oldest magazine being published today. Ted Carnell, the editor of the British New Worlds, is a capable man who tries to please his readers. Now Great American Publications, Inc. comes out with a new twist. An American reprint of a British magazine. If they (Great American) would have at least the courtesy to state this was a reprint magazina no doubt we would feel better. Inclead they release a magazine giving the impression that it is a brand new may (which in theory it is) with original stories. Readers are supposed to shell out 35¢ for an imitation when they can get the original for the same price\*, They should have some sort of moral ohligation, if not a legal obligation, to give credit to Nova Publications. We strongly protest this method of doing business. It certainly isn't ethical, to say the least.

ories: THIRTY DEGREES CATTYWONKUS by James Bell, WHEN DAY IS DONE by Arnold

Castle, HEEL by Philip Jose Farmer, and

A GREAT DAY FOR THE IRSH by A. M. Light-

ner. Feature: WORLDS OF IF by Frederik

Pchl. Inside illos by Wood and Finlay.

-----

The previous remarks a r e just a sample of what we hope to give you each month in this column. We feel that just a listing of the magazines does not tell too much so we inserted our own remarks. We hope Science-Fiction Times readers will like it. After all, this is your column. Now to the magazines that were published:

NAME	DATE	PRICES	PAGES	SCHEDULE
Amazing Science Fiction Stories	Feb. 1960	35¢	146	Monthly
Astounding (Analog) Science Fact & Fiction	Feb. 1960	50¢	178	Monthly
Fantastic Science Fiction Stories	Feb. 1960	35¢	130	Monthly
Fantastic Universe** ( ) size)	Feb. 1.960	35¢	128	Monthly
Fantasy & Science Fiction	Feb. 1960	40\$	130	Monthly
If Science Fiction	Mar. 1960	35¢	130	Bi-Monthly
Science Fiction Stories	Mar. 1960	35¢	130	Bi-Monthly
New Worlds Science Fiction	Mar. 1960	35¢	128	Hanthly

\*All current issues of the three British magazines can be obtained at their newsstand price from STEPHEN'S BOOK SERVICE, 71 Third Ave., New York 3, New York. \*\*The cover title of Fantastic Universe is FANTASTIC (SCIENCE FACT & FICTION) UNI-VERSE. A very strong similarity to the new title of Astounding Science Fact & Fiction.

FAGE 4	OTON THREE
***This is the first issue of this reprint magazine. It is scheduled to b	e publish-
During the month of January, 8 magazines were released, 7 were digest-si \$2.65 and contained 969 pages, 0 n e was pulp-size costing 35¢ and cont pages, making a total of \$3.00 and 1,099 pages.

During January 1960, 4 science/fantasy pocket-books came out costing \$1.40 and containing 736 pages.

THE COSMIC REPORTER

(including "The Time Stream)

by J. Harry Vincent

(Because Arthur J. Cox no longer has time to gather material for his famous column "The Cosmic Reporter", he has resigned. He handlied the column with honor for over ten years, and we will all miss his viewpoints, Cox visited the home office in College Point for the first time last September while he was in the East doing research for a non-science-fiction book, At that time he and editor Taurasi had figured out new ideas for his column, but things didn't pan out. The outcome is that the two columns, "The Cosmic Reporter" and "The Time Stream" have been combined -- for now anyway.)

#### CAMPBELL AND "ANALOG"

In spite of any name changing, editor-Campbell informs us that the contents of Astounding will not be changed, except for the regular progressive changes that all magazines must make to keep up/or ahead of the times. The final name of the mag will still be ANALOG SCIENCE FACT FICTION. The current ASTOUNDING SCIENCE FACT & FICTION is just part of the change-over. We have investigated this name-change and discussed it with

numerous fans, authors, editors, newsstand dealers etc., and come up with the conclusion that no on e likes the new name at all and they feel that it will hurt the magazine. Altho they understand the reason for the change they feel that the new name, ANALOG, is unknown among the readers of Astounding that pick up the mag on the newsstands and that the name means nothing to them. Also that ANALOG will not be exciting enough to attract new readers who might enjoy sof. All feel that while science-fiction has been loused up by some movies, TV and some science-fiction magazines, etc., it still is the best name for the literature AND IT STILL IS THE ONLY TITLE THAT SELLS science-fiction. As for the "Astounding" part of the name, all talked to feel that a title that has been in the public eye for 30 years is a title well worth keeping. No one can understand why Campbell or Street & Smith want to make such a complete break from so valuable a title.

And we sure hate to dig in a t а you time like this Mr. Campbell, but sure didn't help the good name of science-fiction by such "occult" items a s dianetics and the present thrash younow take great delight in calling s-f. Or is that the "Analog" part of the KHANGE proposed title. WE PROTEST THE OF THE NAME "ASTOUNDING".

DACEL

SPEAKING OF SHAPES

Getting down to bare facts, you are in really sad shape if you are trying to go it alone in your enjoyment of Science-Fiction and Fantasy-Fiction. It's just not human nature.

Man is a social creature. He must join with others of similar interests if he is to really enjoy any hobby.

Having your own little circle of fan friends is all to the good. Likewise, it is a smart move to join a local fan club ... or even an international one devoted to your own specialized phase of fanac.

But these aren't the whole answer. You need the mental stimulation of a larger group which covers all phases of fanac: writing, publishing, collecting, reading, corresponding, etc.

Only in this way can you get the width of viewpoint which you need to really enjoy your own fanac.

There is just one organization today which fulfills this requirement. This is the National Fantasy Fan Federation.

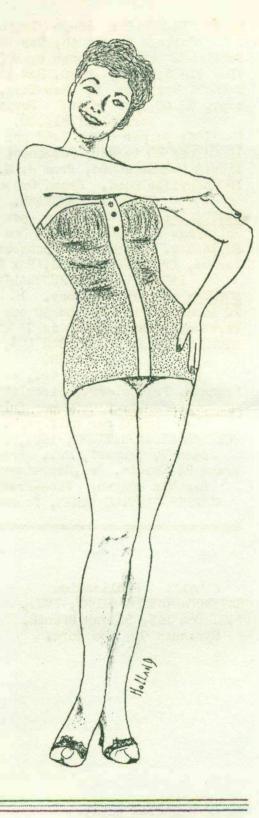

We can't claim that we have members all over the Universe -- not yet anyhow, although we do have plans to send a few application blanks along with the first man-carrying space rocket. If there are intelligent beings on any of the planets visited, we'll have them in the NFFF!

In the meantime, we can offer you the opportunity of associating with members whose viewpoints, at least, are as broad as the Universe.

If the shape-of-things-to-come in your future is to bring you the greatest and most lasting enjoyment, it must include membership in the NFFF.

For information write the secretary: Janie Lamb, Route 1, Heiskell, Tenn.
