

LASTS PROGRAM SCHEDULE

OUR TRIAL SERIES of programs, an announcement of which was sent you several months ago, was greatly enjoyed by all. The Lecture on Lovecraft by Laney...the Science-Fantasy Quiz...the reminiscences of Early Days in the Club by a Charter Member...and 4e Ackerman's account of the "Nycon"--the First World Science Fiction Convention, in New York City (1939)...all had a fine reception.

OUR NEW SERIES starts Aug 9. This evening will be rather unique in entertainment, in that each person attending will have an opportunity to participate in the publication of a fanmag; specifically, the club organ, Shangri-L'Affaires. It is anticipated that the room will be a fan-hive of activity, everyone doing creative writing or drawing, stenciling, mimeographing--or at least assisting in some of the mechanical or manual details.

Aug 16, Forrest Ackerman will speak on the "Chicon"--the 2d Stf Convention, which was held at Chicago in '40. It is anticipated the President of the National Fantasy Fans Federation, E. Everett Evans, will be present at this meeting, and Elmer Perdue, as both were at the Chicon.

Aug 23, the director, Fran Laney, will tell interesting fanac-dotes which occurred during his trip from his former home, Clarkston, Wash., to L.A. Along the way he met many fan & pro personalities, Clark Ashton Smith & William "Diablerie" Watson among them.

In Sep. we will be favored by a series of three lectures by the erudite student & raconteur, S. Davenport Russell, on "The History of Witchcraft in Europe".

It is anticipated that Tigrina, fantasy fanne from Northern Cal, will be visiting the club on either the evenings of 9 & 16 Aug, or possibly both. She has expressed a desire to meet all possible fans in the So Cal sector, and it is hoped that many of you infrequent attenders can chose one or the other of these evenings for a visit. Also, Cpl Russ Hodgkins, one of our former directors, is in town on a furlo & expects to attend one or the other of the early Aug meetings.

If you have any suggestions for programs of a scientificational, fantastic or weird nature which would make the Club more interesting to you personally, so that we could count on your more frequent attendance, do not fail to inform

The Program Chairman,
Los Angeles Science Fantasy Socy
