\*Sneaked into here despite being aimed at some cruddy imitation of Our Fair APA.

Andrew Kelly Main, bem, who is Not With Us tonight, wishes it to be known that a) he has moved to 24 James St., just below Chinatown, or maybe even in it, and has a new phone number: W0e 2-6884; and b) he is In The Market (cheap, like) for chairs and a chest of drawers. He could use maybe a shower or bathtub too, since his apartment has neither.

Steve Stiles is absent from this meeting and this mailing, and as a result thereof has been condemned and will be torn down.

FREEDONIA was postmailed to the last mailing. (FREEDONIA...John Boardman...5) This bring mlg 16's pagecount up to 57. Wow. And Dick Lupoff did the lettering of "The" in the EFFER log last time, too, I'm told. I wouldn't brag about it, Dick.
