Dear Anzapa Members,

I have advised David Grigg that I wish to resign from Anzapa as of the mailing when the Constitution would require my being thrown out for insufficient activity. This has not been an easy decision to reach: I am fond of Anzapa, and apart from Bruce Gillespie I am the only surviving member who joined with the first mailing and has stayed ever since. But it is a necessary decision. It is part of my general resolution to play a far less active part in fandom, and especially Australian fandom, than I have in the past. I have also resigned from the Australia in '75 Committee. I will not be renewing my membership in Ompa and Africapa. And 'Scythrop' will end with the issue I am working on.

Some of the reason behind all this is outlined in the next two pages, which will be the concluding pages of Scythrop 28. Anzapa members will receive that issue. I will be continuing 'Philosophical Gas', mainly for FAPA. It's more or less up to you whether you see PG.

Please don't think I'm gaffiating. I'm not. But I won't be quite as active as I have been. I look forward to seeing some of you in Melbourne (and maybe Hobart) early in the New Year. Keep in touch - and good luck to you all!

JRB.
