

BIRMINGHAM SCIENCE FICTION GROUP

Christmas Party

Friday 16th December 1983

— MENU —

JOVIAN BROTH

Freshly scooped from the lower atmospheric layer of Jupiter, and rich in nourishing organic molecules

ROAST SUCKLING SANDWORM

A delicacy from the desert planet Arrakis, with the longevity spice, melange.

Roast Venusian swamp-root

Titanian tubers

Saturnian sproutings

CALLISTO COCKTAILS

Specially imported from the 'snowball' moon; oxides of hydrogen, carbon, and nitrogen on a friable base.

CAFE DU CENTAURI

Coffee from the plantations of Alpha Centauri IV

(We recommend either white or red wine with the above menu; one glass of your choice will be served with our compliments)
