IncuNebulous Publication 1113, February 1976

Distrubuted through the 155th mailing of the FAPA, May 1976

Copies available for 35¢ (plus 25¢ postage if by mail).

Additions and corrections requested for inclusion in a third edition. (Don't discard any copies of the first edition, as there have been some deletions. There will be other deletions between now and the third edition -- most of those reported deceased in this edition, and some of the long-gafiated fringe fans. It is admitted that these compilations are heavily LASFS-oriented, but that's the easiest source of sucu information.)

Thanks to: Jack Harness for the cover.

Art Hayes for putting the birthdates of new NFFF members in various issues of BULLZINE. (It might be suggested that the NFFF publish birthdates along with address of members once a year, instead of keeping the information for the sole use of their Birthday Card bureau...)

Apologies to: Any member of the Aussiecon Group Flight's ~~NASFiC~~ Executive Bus who isn't listed and wanted to be. The notebook disappeared at NASFiC before I could transcribe the data.
