

Night of the Living Statistics

Night of the Living Statistics is the eighth annual SFPA index collected by Jeffrey Copeland, in the hope that it will be useful in the annual egoboo poll exercise. It is published by Bywater Press at 3243 165th Ave, SE, Bellevue, Washington 98008. The text of *Night of the Living Statistics* was composed using the T_EX typesetting system, and is set in 10-and-11-point Optima. The original press run of this publication was printed 29 September 2002.

The front and back cover illustrations are stills from *Night of the Living Dead* off the web.

Unfortunately, most people do not understand even the basic elements of statistics and probability, which is why astrologers and advertising agencies flourish. If you want to start an interesting fight, say in a loud voice at your next cocktail party, "Fifty percent of Americans (or whatever) are mentally subnormal." Then watch all those annoyed by this mathematical tautology instantly pigeonhole themselves.
