YOUR ATTENTION, PLEASE!

We are a candidate for the post of Vice-President in this election for a few reasons, which we humbly set forth.

Having been with the organization since its inception, we have held the three other elective posts; we seek the Vice-Presidency to round out our career.

Having drafted the original set-up of the club, we originated the unique duties of the Vice-President's office, unique in that no other organization gives this position the exceptional responsibility. The Vice-President is not a dummy office.

Having familiarity with all the problems and upsets of the FAPA, we feel that we are better capable of coping with them than many. We were the first and main user of this post for clarification of questions of the constitution. See past numbers of the Fantasy Amateur for proof. We have been alert, more than most, to the various constitutional snarls that have come up. As Vice-President you may rest assured that the club is being watched over very strictly.

We ask your vote on the above grounds.

--D.A.W.
