

Herein is contained a small selection of greeting cards after the current fashion of celebrating almost any occasion with a left-handed compliment. You will find a card for almost any circumstance; good wishes and true for friend and foe. Not only have we thoughtfully included a special card for GM Carr fellowships, a do-it-yourself GM Carr card, but a proper apology for all concerned.

In case you have discovered a hoax, or in case one of your acquaintances isn't sure whether he is or isn't a hoax; here is a reassuring card.

A handy home announcement of the near-birth of the fanzine that fandom has been waiting for; with the little hand-made touches that make it a personal thing, is an indispensable item for the neofan or the busy bnf who is looking for a fight.

These gems of literary and artistic beauty and utility will fill that lack in your fanac, that void in your contact with other fans, the touch of c'est la vie that characterizes your attitude toward life! How have you managed this long without

FANMARK GREETING CARDS

This ...er...portfolio is a sort of Happy Day Gift to the apas; FAPA, N'APA; OMPA; and SAPS from Jim Caughran (who thot up the idea and supplied some of the captions), John Trimble (who ran everything off on the LASFStetner), and Bjo (who did the lettering...ugh!..and art). Since none of us need page-credit in any of our respective apas, we are simply not asking for any division of credits, or quibble about prior distribution. This set of cards is being sent to all you folks because we feel that you might get a snort out of them; we will send 'em out in the next mailing that comes due, and so on. Some of you will get duplicates. But in this way, we know that everyone interesting will have a set. We hope you like them. Here; have fun!
