and will publish it this
Fall. More details later

FANTASY ORGANIZATION TO
BE STARTED BY NY-NJ
FANS

(Special to FN) A a
friendly meeting last
Sunday, William S.
SYKORA; Sam Moskowitz;
James V. Taurasi and
Alex Osheroff talked
over plans to form an
American Fantasy Club.
The dues will be set
at \$1.00 a year. The
club magazine will be
hctographed and pub-
lished bi-monthly at
the start. It is hoped
to have it mimeographed
and monthly when the
organization is well
under way. A name has
not as yet been assign-
ed to the association.
For more details, read
future issues of this
paper or write to W.
S. Sykora, 31-51 41st
Street, Long Island
City, New York.

GARDNER TO COME TO
NEW YORK

(Special to FN) Thos.
S. Gardner, well known
stf author, will come
to New York this Fall
to study at Columbia.
While in New York, he
will vist the Greater
New York Science Fic-
tion League. An arti-
cle by Gardner will be
found in the 3rd JED-
DARA.

AS WE GO TO PRESS

by The Editor

(July 16) As we go
to press to-day, we
hear from Marcon-
ette that his Scin-
ti-Snaps has again
been slightly delay-
ed due to the heat.
The next issue of
his Science Fantasy
Movie Review, will
be The King Kong
Number. A report
comes in that MARVEL
SCIENCE STORIES will
have its second
issue out in about
two weeks or less.
The Lobblies are
broadcast at 10 PM
Mondays and not 9:
30 as stated in the
1st issue. There
are now three fans
writing in line to
join the F.A.P.A.
Among them Bob
Tucker, who states
that he may publish
another issue of
D'Journal, sometime
this Fall. It will
be a Humorous mag-
azine and have no-
thing to do with
the staple war of
the past. Please
excuse the poor
showing of the let-
ter "A" in this and
future issues. Our
typewriter keys are
pretty flat, and the
A is the worst.

The MOVIE CORNER

by Mario Racio, Jr.

The week of July 11th saw many revivals of stfilms in New York. I'm working on a plan, so that the local fans will be able to see some of these films, instead of reading about them after the films have already been shown. The revivals included; DRACULA; DR. JEKYLL & MR. HYDE; THE MAN WHO LIVED AGAIN; and the very interesting Swiss film, which has been revived about 3 times so far, THE ETERNAL MASK; FLIGHT INTO NOWHERE, (which is not very stfic, it deals with an aviator lost in a jungle among some Incas Indians.) Others were THE WEREWOLF OF LONDON; GHOST GOES WEST. The international Film Festival, will include in it's second

THIS WEEK'S FAN MAGAZINES

 (All reviews signed LK are written by Louis Kuslan)

The large size, HELIOS arrived 1st Sunday. This issue is very neat, and much clearer than the small sizes. In the contents are: THE LAST FAN, a very good short story by Moskowitz; CONVENTION ASPECTS, a complete and fairly accurate report of the 1st convention. Editorial, Reader's column and a number of small articles. One of the best issues lately. Let's hope that Sam keeps the size of the magazine as it now is. Illustrations in this issue by TAURASI MONCONETTE and AGNEW.

 NOVAE TERRAE arrives from England. This issue contains the thrilling news of a new English S-F magazine which will be out soon. Some of the stories will be: THE MENACE by John Beynon; THE RED MAGICIAN by Fearn, People OF THE DEEP by A. Cave; Son OF SPACE by Sibson; SHADOW MAN by E.F. Russell, and an article by Cleator (LK)

6 THE NUCLEUS has just

the legendaryrn, THE GOLEM. MEN WITH WINGS, the aviation film which has a futuristic ending, will open at the Paramount in New York, late in August....MR

 Been finished by Louis Kuslan and will be sent to the mailing bureau of the FAPA very soon. This magazine contains a story by Taurasi, a poem and story by Gert-rude Kuslan, and an article by Louis Kuslan (LK)

THE FUTURIAN arrives from England. It will be in the next FAPA mailing, taking the place of the Leeds' BULLETIN. A very neat print job and very good contents. 8 interesting pages.

 The much delayed SCIENCE ADVENTURE STORIES arrived this week. It contains good stories and good hectors. The illustrations are also very good. 64, small size pages. A class A mag.

 Finished this week the Aug 1st, issue of SOLOR with a cover by MARCONETTE and an interesting item by SPEER. It'll be the last hector issue till Fall.

 The Science Fiction News Letter completes the list for x this week.
