

Q.E.D.

Goojie Publication No. 5

from

Q.E.D., Google Publication #5, is being published two years late by Miriam Knight, who used to be Miriam Carr, of 947 University Avenue, Berkeley 10, California, in July, 1962, for a number of fans and FAPA members. Anyone who wants a copy and didn't get one free for any reason can send me 10¢, or European fans can send 6d. to TAFF.

I've been FAFIA for a little over a year now due to illness and then divorce and then more illness and then a marriage and then moving. Having been to the Westercon XV this week, however, has really re-aroused my fannish enthusiasm.

Tho the idea and the idiot work for this portfolio is mine, all the ego-boo belongs to the artists themselves and to Terry Carr, who provided much of the mastering and running off of the art-work. Apologies are due to these noble fans for my having held this up such a long time.

Apologies are also due to the authors of the written text originally prepared for Q.E.D. But that work will appear in another zine, real soon now...really!

Well, anyway, I think that these are six fine and beautiful pictures, and I hope that you like them as much as I do. So I'm very happy to be re-entering actifandom with this zine.
