IDIOTORIAL

No doubt you are expecting me to say something here. But I can't think of anything to say. I guess I'll just put down anything that comes to mind.

As you have probably surmised by now, this is my first attempt at stenciling. I've done mimeoing before. I publish MUTANT (free plug). As a matter of fact, this was run off on the Michigan Science Fantasy Society's mimeograph. Are they going to be surprised.

At the same time I got "Manifesto" from Nelson, I got three or four dozen illustrations from the same source. Then, like a durn fool I sent them to the editor of MUTANT (two free plugs). So now you must suffer under the lashes of my sorry brush.

Art Rapp was a busy little Beaver (or was that Roscoe?) around Cinvention time. Over half the new members of SAPS were brought inby him. That includes me. I guess he must have wanted new members pretty badly. The real miracle was that I joined. I still don't know why I joined. Maybe that blaster he had in his hand had something to do with it.....

Here endeth the idiotorial.
