

What I think of Evolution and Other Horse Maner

by Bobby George Poulewttte

Its time I tll you what I think of Derwin's Evuultion. I have heard some much nonsense in all myh life. I can't be related to the monkeys. Nevbody I know is related to the monekys. Except for my youngest brother stevy Jo. He's related to the monkeys. But nobody else. Also, Derwiens theory, I hear, says we'll be extinct. I'd be very unhappy if we were extinct. Where would I hang my socks? Did you ever think e that I bet you no how dint.
