Hi!

This is in the mailing, the gods be willing, for at least two reasons. One because I wanted to do it, obviously (although I didn't know when I began that it would turn into such an extensive job) and the other because I find I'm not going to get the FAPA WHO'S WHO completed in time. This, I submit, is largely your fault.

To date--16 January as I type this--the following people have returned their poll sheets from the last mailing:

Marion Bradley
Charles Burbee (!)
G. M. Carr
Terry Carr
Miri Carr
Jim Caughran
John Champion
Juanita Coulson
Bob Coulson
Bill Danner
Chick Derry
Sally Dunn
Phyllis Economou
Ron Ellick
Dick Eney
Marty Fleischman
Pete Graham
Lynn Hickman
Curt Janke
Dan McPhail
Bob Pavlat
Bob Silverberg
Rick Sneary
Gerald Steward
John Trimble
Bob Tucker
Harry Warner
Helen Wesson (!)

So you can see for yourself that there are a few more yet to come. This FAPA WHO'S WHO, accordingly, from now on has an indefinite deadline. I plan to keep revising it and make annual editions, if all goes well, so material can be accepted any time in the future. But for this first edition, get the rest of those sheets in right away, huh? Please?

Dick Eney, who has photos of a good many FAPAns, is preparing a photo page to be inserted into the volume, but I'm sure he doesn't have a collection of ID pictures of the entire membership so if you have a snapshot or something you'd like to send along we'd be glad to have it. On hand at the moment is a nice one of Miriam Carr ...heck, if enough others come in I might even print one of myself if I can feel lost among the anonymity of the crowd.

Egoboo poll results in this issue were made possible when Bob Pavlat loaned me a critical missing FA, for which many thanks. Oh, yes...where possible, the names of non-members appearing in these results are enclosed in (), but as you can see this didn't always work and I missed quite a few names. Corrections would be appreciated, but who among you will go to that much trouble? Ties in the poll places are indicated by *'s...and for the rest of it, I think you'll be able to figure it out pretty well. Cover this issue is by Richard Bergeron. And I guess that's all I have to say this time around.
