Australian Fanzine Database 1939 to 1975

COMPLETED JUNE 2020

NOTES

This database only lists items either held in various state and federal library collections and in the Kim Huett private collection. These are items that have been physically sighted by the editors as of June 2020. As such this is an incomplete list of Australian fanzines produced prior to the end of 1975.

This database only covers the period 1939 to 1975 as it was created for a yet to be revealed project.

Contributions to ANZAPA (the Australian & New Zealand Amateur Press Association) have only been included if the contribution was widely distributed outside of that apa.

A revised edition is possible depending on there being time and energy to spare. As such recommendations of possible additions are accepted but only if accompanied by a scan of the relevant contents page.

Recommendations can be sent to kim.huett at his gmail address.
