

LOTTO OTTO'S ROTTTO BOG

number
9

47th SAPS MAILING

This here now is the beginning of BOG #9. Lemmeesee, BOG is the product of the sumwat corny mind of Blotto Otto Pfeifer. Place of residence is still 4736 40th. N.E. Seattle 5, Wash. As always, this is a FenDen Publication.

Here it is Jan. 17th. and alreddy yet I am starting work on BOG. I may actually be the first to get a zine in for once. Last mailing cured me of wiating until the last minute.

Was going to do something different for my mc's these time, but the last mailing was so good that I decided to wait until we had a smaller mailing to do them.

It was nice to see Eva Firestone coming back. Sure did miss her. Have you noticed that everybody that has come into SAPS the past few mailings have definatly fitted in? Stopped by to see Larry Stone to-day. He is looking forward to being admitted to SAPS(he should have a zine in this mailing). Real SAPpish type.

Did something different this time. I started my editorial way back in January and finished it in April. This is progress?

Let me see, what has happened in the past few months that you might be interested in. Well, to start off.

I have always been one to do the things that I have always wanted to do. That is if at sometime I had wanted to do something and the opportunity presented itself, well I would go ahead and do it. Such a thing happened the other day, it is mostly mundane tho it does has its fannish aspects. I have always like being in parades, especially playing in a band. At long last I have realized this ambition by joining an American Legion Drum and Bugle Corps. I think that I am supposed to play the bugle, but the boys here at Swamphouse have another name for it. Ah well, A friend once told me that I should blow my own horn. As I said, there is a fannish aspect here that helped me decide to join the corps. One of the first question that they asked me was, "Are you a drinking man?" When I answered in the affirmative, they had this to say. "Then this is the outfit for you." 5 seconds later I had a bugle in my hands.

Now is a good time to tell you that the cover of th ish was done by Wally Weber. Both the front and back versions. The back cover was an experimoent that went wrong I'm afraid.

Seattle fandom is becoming acenter of activity, now that the date for the Westercon is fast approaching. I imagine that some of you will be able to make it. I wish that there was some way that all of you could come. It would be nice meeting you in person, tho I feel as if I knew you already.

I had a little thing from Rich Brown that I was going to use this time, but I can't seem to be able to find it. I will dig it up and include it the next time around.

Oh yeah, Beware, sometime in the near future, you may recieve a genuine, real-life sure-enough Blotto Otto tape recording. I haven't decided who shall be the first ~~recipient~~ recipient, but that is a moot point. The thing is, that such a tape will be in preparation soon.

That is enough off this chatter, if you turn the page I am sure that you will find that the mailing comments start there.

Since some SAPS have been playing records while they have typed their mc's and injected the titles in their MC'S, I decided to go along with the fad. The first record that will play is 'Music To Eat By' recorded by Beef Stack and his Celery Chompers. Now on to the

MAILING COMMENTS.

GHU SAPLEMENT**JOHN DAVIS.

'Today Arizona, tomorrow the world'. It just ghus to show you what happens when you give a little ghod a thimble full of power.## You mean that if this girl of yours graduates this year, you had better learn to run fast.## Never, never use Garcone and beauty in the same sentence. You may be the receipient of some of his art(?)work. Then you'll be sorry.## I think that cleavage and bust developement is the SECOND most popular male topic.## You ask a woman her age? Man, you got rocks in your head.## I have discovered how to read a zine (prozine,length of ASTOUNDING) in one minute. Of course,you get a feeling that you have missed something when you just read the covers that way.## Tho,I can't prove it, I think that Wally Weber cheats at Monopoly,he must, he always win. Grrr, I hate people that cheat fair.##I'm a Scotch drinker too,that is, I drink if somebody buys me a drink. Seriously, I do like Scotch,tho there isn't much that I don't like. Jack Daniels is one whiskey that I can't stand(Sit either, as a rule.).##I don't know. If the word of Ghu is purple but printed in something else then it can't be purple. If it isn't purple then Ghu is deceiving everbody by saying that it is. Hmm, somehow I can't trust a ghod that doesn't know what color that his word is printed in.## Yeah, Larry Stone did buy the ditto. We shall see in this mailing how it is working for him.## Better watch out, poetry like that will get you in trouble, you know, married.##I like classical music but I am not informed enough to discuss it.## Well, I see that I have run out of things to say to you,so will end here. Man, I was talkative.

Before going on to the next zine, I will put on another record. "Music To Buy Shoes By". The artist, John Lastsole and his Six Heels.

POT POURRI**JOHN BERRY.

But John, there is no rule against having outside material. As far as I can tell you haven't flcunted authority.## The lack of proof of any being ,ptior to the indian, inhabiting America does prove one thing. That way back,when the triangle had its points, the American tourist was going strong.(I hope that you can decipher that sentence.)## Enjoyed 'RUSHEN ABBEY'. More to come?##BOG is slang for toilet? Hmm, now you know what to do with the pages when you are finished reading it.##Vaughn Williams was quite well known in this part of the world.##Will send you a short bit of background on the history of Soames.## Try looking up FOUT in Webster's Upper Bridge.## Yeah, but WHAT is he spreading around. (Bruce Pelz,I mean.)##You, who live in Heaven....Belfast,calls Seattlethe mecca of Fan-don?Oh joy.## Man, your mc's were wonderful,'tis a real pleasure to have you in SAPS.## Since I am one of those people who don't appreciate poetry, I can't comment on the poems except to say that I liked them. What this proves I don't know, mayhap, I always enjoyed poetryr and never knew it. Ghad, what a thought.## Enjoyed Hall's article. This is the spot I was waiting for. Wally says that he is a quote card completist,but I doubt that he will be able to complete his collection.## Seems as though I have finished your zine, John,but I did have something else to say. Can't seem to think of it right at the present. Being the block that I am a chip of, my Dad always buys Irish Sweepstake tickets. So he has never won a thing, but he keeps trying. This has nothing to do with anything, I just thought that I could put it in. Then again, you may be interested, thoughthere is the chance that you are not. That proved nothing. See ya next mailing.

 Detroit in '59, Washington in '60 and PUCON in '61.

New stencil,new zine and of cawss,new record. This time it is my favorite. 'Music toBuy Kee Lox Ribbons To'and this is done by Blotto Otto and his Carbon Copies.

AGHAST #6 ** BILL MEYERS.

Gads, another member who thought about resigning. Glad that you didn't Bill, we would have missed you. I wonder why so many fans are thinking about resigning. If I ever get to be OE, I think that I will have a law against resigning.## SOD ala BOG? Hm, pie ala mode I can digst but I have never tried SOD ala BOG.## Why do we die? well, I suppose that it is the only thing left to do,when you stop living.## Pic of John Berry makes him look like Clark Gable.##Sirrah, I have something to point out. Seames pointed this out to me,to show how great a detective he is. Now I quote "...Sefton suggested we go get druhk,but since it was just about 11:00 and we hadn't even eaten lunch yet...." Now by your own statement you were due in Huntsville either 9:30 or 10:30, since the bus was late you possibly didn't arrive until 11:00 or 12:00. Now you waited around to be picked up,finally somebody did pick you up. You drove to Adam's house met his mother, looked around showed him your Love craft and various other things and it is still only 11:00. Come now, where do you have the time machine hidden? Confess,who is covering up?## All in all, AGHAST #6 was very enjoyable.

Time for another record. This time it is ' Music To er-ah Bathe By.' Artist is Rusty Drain and his Chamber-Pot Ten.

AGHAST #7** SAME MEYERS.

I hope that when you put out carbon zines, you use Kee Lox carbon. After all, it's the fannish thing to do.(plug)## Disagree on your idea of Count Basie. I think his music is anything but decadent. Bad,well maybe, but not decadent. I like it.## Definately agree with you about starting integration with the first grade. At that age,kids haven't really learned intolerance. I wonder if it is too late to send the parents to school.## As you see, Wally decided to stay in SAPS. You are quite right,his stuff doesn't come out often enough. I asked him if he would do a cover for this BOG,and he agreed. Man, do I love the covers that he does for me.## The civilizations of Central and South America (ancient) have always interested me.Tho, I am interested in ancient American (North) civilizations and finding out why there are no indications that man lived on this continent at the same time as early man in Europe and Africa.## I am not particularly fond of wide hips either. I LIKE B.B.## Potrait of Pelz makes him look like a li'l ole devil. Intentional?## You did a real good job on your mc's. Keep it up ole bhoy.

I wonder what record I should play now. Oh I know. "Music to Sleep By".Starring S. Andnan and his Noisemakers. Real dreary stuff.

ALL THREE YCLEPEDS**WALTER COSLET.

I have lit the wrong end of a filter cigarette and believe me the things that I said I couldn't even put in BOG.##I never thought about a cat in a roomful of birds. 'Tis true, quite, quite true. Thanx.## I'LL say that you are a completist when it comes to mc's. Imagine, Commenting on the Seattle P-I. You gave it a better comment than it deserved. Wonder if you will comment on the paper that you got this time.

Hm, two stencils done and five zines commented on. Things going along the way I want them. This may turn out to be the kind of BOG that I like doing. Of course I really like doing any ish that I work on. Sometimes,I am not pleased with the end results, but I still enjoy doing it.

Get the Goon drunk. Send him to Detroit.

Time to put on another record. We shall now listen to 'Music To Peel Onions By' with Sam Sadeyes and his Weeping Willies. This one contains some real tear-jerkers.

THE SPELEO BEM**BRUCE PELZ.(or is it Fur Pelts)

Can't say that I like your cover. Whaddya mean I can't say it. I just did so therefore I can say it. I didn't like the cover.## Manyoya sounds like a Florida version of Garcone.## I think Manyaya's poems are among the verse I've read.## If all the fans visited Seattle FSF would probably become half-shot.## Sleeping Beauty will be released here in Seattle sometime during February. Last I heard, Disney was going to do a Oz story starring the (ech) Mouseketeers(double ech), no animation.## A cat in a barrel full of mice wouldn't have to be active, whereas, if he like mice, couldn't be anything but ecstatic.## Shall remember your offer to publish the Soanes stories, kind sir. Just thought of something. You are a G.D.A. op, should I trust you with these priceless Soanes stories? Anyhoo they are safe for awhile as Wally isn't leaving SAPS for a while.## Maybe she thought that it was picking up German measles.## Triple pox to you, sir. Dogs are much, much, much beter behaved and loving than cats.## Doubt very much if I will make it to Florida this year, hope that you can make it to the DETENTION.## Hah, just happened to think(not a word, don't say a word), here I am typing mc's on your zine and you haven't even recieved the mailing yet. I must be an eager beaver.(down, Art, Down. I wasn't talking about Roscoe.)## You are going to have the CRY bound and SAPzines too. Bruce, you are a FAAN, a true FAAAAAN.## Liked your casting for PRINCESS IDA, but Tosk playing Buz's son? Casting G.M. as King Gama was a masterpiece. I had to go back and read the operetta as I had forgotten most of it. Good thing that I have the complete works of G&S.## You are as bad off as mc when it come to drawing.## Ah you were wrong about Seattle being legally dry. You don't think that Blotto Otto would live in a dry city, do you?## DOGS OF WAR seems interesting, more episodes are forthcoming, I suppose.## Enjoyed this ish very much, Bruce.

Now to go back into the record library and get another of my favorite records. 'Music to Build Robots By' This version is recorded by Isaac Asimov and his Positronic Friends. This is a beautiful record tho a couple of the passages sound a trifle mechanical.

ROCK** ES ADAMS.

University of Washington is somewhat of a bheerless University. No intoxicating drinks of any kind may be sold within a mile of the Campus.## So your a hood, well it so happens that I need a new hood for my car. Interested?## This is the spot, right here. Hold on to your hats, SAPS, I'm going to get serious. I have been noting that so many people say that intergration wont work. This is getting boring. With this sort of viewpoint how can aby^a thing work? True, to make something work, everybody has to put in and help, but regardless of this integration is working. Sure you hear a lot about the places where it isn't going very well. This makes headline news so it is played up. Look through your paper carefully in some small section towards the rear of the paper, you will find a small item telling of another place where integration is working out. For everyplace that integration has bogged down, there are ten places where it is working. This tirade is not directed at you, Es, it is something that I have been meaning to say for some time.## Freberg's record was Green Christmas. I believe that it was banned on the radio stations in Seattle. I believe that it could have been bough in a record store. I heard it in Canada, where it wasn't banned.## Enjoyed the article on the B.S.A. will have to recount my experiences sometime or tother.## Your repro turned out pretty good, Es. Maybe Bill worked extra hard to do this, but the whole zine was readable.## Welcome to SAPS.

To-day is Jan. 18th. if I can keep this up, I should have BOG finished sometime in Feb. This will be the earliest that BOG has been done. Hmm, cantdo anything else on this stencil so I better start a new one.

Eghads I must have fallen asleep, here it is March 15th alreddy yet so soon. Better put another record on and continue my merry way. Lets see, I think that I will put on 'Music To Get Sick By' This is done up by Van Illa and the Crottled Greeps. This is on the Nauseating label.

FLABBERGASTING** BURNETT TOSKEY.

Tell me Tosk, when does Megan Sue? ## If you think what happened in the last Soames story was bad, wait until you see what will be coming up. Specially since I had to sit through that torture a few Sundays ago.## Tosk, you had better qualify that statement that cocktail bars sell everything.## Chee, I thought that Angel records would be heavenly.## You want prices on 1923 - 24 Wierds? How does 5¢ a copy sound to you? Fine? Now all you have to do is find somebody who will sell them to you at those prices. Well, you did ask for prices.## You know, when I first entered school, I had a hard time getting into kindergarten. After all, how many schools will take in a 18 year old bookie. I finally made it when the principle made a bet so big that he couldn't pay off when the horse loss.## Come now Tosk, after all these years, how can the ground contain enough arsenic to be a harmful factor?## But Tosk, You don't seem to want to go to conventions. John wants to go and can't, you can go but doubt if you will. Talking about conventions, I am beginning to have doubts that I will be able to make it to the DETENTION. Will know definately by the time that the WESTERCON is over.## Now you can add Jim Caughran to the list of fans that you have met.## THAT'S CHEATING !!! I had to sit through the telling of some of those (ech) jokes, now you put them in your comments to BOG. Tosk, beware!!!## Fie upon you, up with horse races.## I just remembered that I can't exact to much revenge on you, you are a customer. It was a fine day when I sold the Salesman's Nemesis, ole Tosk himself.## Bhoy, you sure had a case built up against me. I was starting to believe that I had put you on the FAPA waiting-list. I'm glad that you confessed.## Well, 'tis a all for you this mailing, see you in next couple of days.

Time for a new record. This time it's, 'Music To Smoke By' "King" Size and his Ash Watchers. Contains some new smooth filtered sounds.

MAINE*IAC**ED COX

Puy gollies, you are right. I turn to page 2 and there was a bit called 'SPIDER'. Enjoyed it. We don't have many Black Widow Spiders in this part of the country, I have heard of only two or three cases where people have been bitten by them. I am not sure if I have seen any myself. I usually stomp out spiders ~~xxx~~ without asking them what specie they are.## Did I ever mention that I am also a Glenn Miller fan? ## I maught have known. I had to run off Maine-iac 13. Psigh.## You have a Leica? Man, that is my idea of the best camera made. I owned a Leica whilst stationed in Germany. Somebody with fly-paper fingers got hold of it just before I was shipped back to the states. Man, did I ever get wonderful results with that camera.## Really chuckled at your review of the first issue of UNKNOWN.## Whoops, I goofed. Not the first ish but Vol.1 No.6.## UPA I dig the least. Oh for the good old days when cartoons were cartoons and were funny.## Hane you seen these Burma Shave signs that proclaim, 'FREE FREE, A TRIP TO MARS, FOR ONLY 900 EMPTY JARS' Well, it seems that somebody actually collected 900 empty jars and turned them in. True to their word, the Burma Shave people are going to send him to Mars..... Mars Germany.## The sirens go off at noon every Tuesday here in Seattle, it has gotten to the point that nobody pays any attention to them any more. Wonder what would happen if the went off for real.## Will bring your comments to a screeching halt now. There is something that I must ask. Ya comin to da Westercon?

Why is it that no matter where I go to work on Fanac, I am plagued by constant interruptions. Someday, I will get me a little cabin out in the woods by a little stream and settle down to some serious work. (This is dream #1)

Here is a good record. 'Music To Drink Coffee By' Chasen Sanborn and his Lipton Tea Drinkers. The music on this is really ground out.

NANDU 21 ** NAN GERDING

I see that you are still under Garcones power. Once you give in and use some of his work, you are stuck with him.## 'Tis a very interesting theory that you brought up, Nangee me gal. You may have something there, what it is, I have no idea. I have never had the feeling of a civilization built on the concept of 'mans humanity to man'. It may have existed some time somewhere, but to be perfectly frank, I have my doubts, maybe sometime in the future this may be the rule.## Chuckled at Rapp's bit. He is always good for a laugh.## Sure will be glad when you get the time to turn out a few mc's Nan, we miss you.

That was a short record, so lets but on another one. This time we will listen to; 'Classical Music For Non-classical SAPS.' Spike Jones conducting the Elvis Presley Philharmonis Orchestra.

CHARLAR**MARTY FLEISCHMAN.

This is a skinny one. Whatcha do? Forget to feed it?## You want to know who watches Big Brother? Well, I'll tell you who vatches Big Brother. The person that watches Big Brothere is...is... Big Mother-In-Law. Now aren't you glad that you asked.## Just don't seem to be able to comment on your zine this time Marty, maybe the next ish will be different.

Lets put on another record. ' Music to Wash Your Socks By.' Soapy Smith and his band that duz everything. He has a nice bubbly bounce in his music.

NEMATODE**BOB LEMAN

See that you mentioned your favorite types of poetry. I kinda like the vembietroon myself, but my favorite is the one that you also failed to mention. This is the semi-adrenalphilic. It consists of one line containing the single word, NUTS.## Could argue with you on the height of Mt. McKinley, but I won't. I won't even mention that it is 20,300 ft high. So there.## Soames is walking around around around with his head in the clouds after reading 'Pantoun For Soames' He really appreciated it.## Man, you sure did a bang up job on your mc's. They turned out the way mc's should turn out. On a page. No, that isn't quite right. In a SAPzine, still not what I want but it will have to do.## By the way, did I ever send your book back to you?

Back to the turntable to put on, 'Music for Dog Catchers.' Done by, The Old Spacehound and the K-9 Corps Ghorale. This is a real howler.

DISSENTING OPINION** RICH (SOAMES OP) BROWN.

Gosh, not much here to comment on, Rich. Sounds like you had your troubles. Looking forward to see that Soames story that you told me about.## Ghads, you were kind of rough on Bob Leman weren't you. Classing him with G.M. Carr was a pretty horrible thing, no man deserves that.## Heard you tape at the Busby's the other day. Was kind of hard to hear, Buz had the volume turned up and it was still hard to hear what you and Ted were saying. Ole Blotto Otto will probably send out a tape to all you SAPS one of these days. Will be looking for PRA in this coming mailing.

Ghad, time is slipping rapidly by. Only about three weeks until deadline and I have many, many zines yet to comment on. They are too good, to give a breif comment on so will just have to work harded and faster. No article this time, the next BOG will be done on my vacation, so will include it then.

A new stencil and a new record. I just bought this one so I haven't heard it yet. It is 'Music To Grow Old By.' The artist is a youngster just making a start. The name? Oh yeah. Orphan Annie and the Mary Worth All-Stars.

BRONC** EVA FIRESTONE.

Welcome back, Eva, you I really missed. Lookit this gal, all you SAPS, she comes booming back into SAPS by commenting on the mailings that she missed out on. Eva, you are a truSAP and worthy of the Order of the Golden Gestetner.## I have read and re-read all of Kenneth Roberts books. I think that my favorite was Lydia Bailey, tho Arundel and Rabble in Arms rate right behind it. I think that the Northwest Passage teevee series is for the birds tho. Not done well at all.## Talking about collecting old books, gave me an idea. I am going to collect the Oz books. I have just now rade up my head.## I get the impression that you are afraid of spiders. I hate them too. Did I ever mention the time that one bit me then died. Yep, the poor thing got crushed by a runaway shoe. I hear that its survivors had to take in washing, tho one of its sons made a killing being undertaker for the husbands of black widow spiders.## Ha, I may do another 'illo' one of these days. When I get the courage I suppose.## Right now, I am on a Perry Mason kick. I watch the teevee versions of his cases and have recently started to read some of the books. Who know, someday it might gif mit 'Soanes consults Perry Mason'.## Typing in a car doesn't seem to be to difficult. The typer just sits on your lap, that is all there is to it. I like to get outdoors to do my typing, of course it helps if the weather is nice.## Noooooo, Vincent Price doesn't resemble Hans Conreid. Can't descibe his looks of hand. Did you see 'THE FLY'? He was in that.## Have never been able to attempt to read an UFO book. could be that I am missing something.## Guy Madison played Wild Bill Hickok in the teevee series.## Enjoyed all the stories and articles in Bronc.## I feel guilty, I could have used a whole stencil commenting on this BRONC, but I was reminded by the calender that I had better get a move on. Wont be long until April 15th. Adios for now.

Better put on another record I suppose. 'Music for Travelling' by John Dulles and The Statesman. This boy is going places.

OUTSIDERS** WRAI BALLARD

I hate to think of any government agency that undertakes to investigate SAPS. Their reports would lead to the formation of another agency to investigate them. Ahhh, it would be a lovely, a delightful, a vicious circle.## You are right, half the fun in being ominous is being accused of being ominous. Shux, if you are and aren't, you shouldn't in the first place, but then if you aren't and are, then that is as much fun as being and being noticed. Understand?## Did you hear about the witch who hypnotized a knight into taking the place of her broom? Seems she wanted to be a fly-by-knight.## Agree with you in you comments to Bob Leman about sending in subzines.## Glad that you like the Insurance Salesman bit, am going to try something like that again in the near future.## You are right, there is nothing worse for a fan pubber than to have his circulation stopped.## Pshaw, it seems that I have come to the end of OUTSIDERS, but I am in no way through with you, Sir Wrai, sirrah.## I have been trying to get the company to pay my expenses for a trip to see you. Ya see, part of my territory is Ballard, and they never specified which Ballard they meant. Well, I'll get the idea through to them eventually.## Chee, it is getting late, I will have to call it a day soon, lessee, what day shall I call it, hummm Sunday March 29th. seems to be a good day. I hope that nobody else is using it.## Well, Wrai, I am finished with you now, will have more to say to you in the next mailing.

Smoke Filties. The only cigarette that you smoke the filter and throw the tobacco away. (did I steal that from anyone?)

Heigh-ho and away we go. Must get BOG finished to-night, otherwise it might finish me. Well, at least it is time for another record. 'Music To Get Drunk By' recorded by Jack Daniels and the Dee Tees. This is good for what ails you.

THE SPELEO BEM 2½*** BRUCE PELZ.

Chee, I always wanted the music for the 'Green Hills of Earth.' Now, I can play it on my bugle.## You should have saved that 'last' list for the last bootlilgraphy.## Bruce, not Seattle in '61. It's more like PUCON in '61.## Never mind, youse is forgiven.## Seem to have stretched the comments on this, out to the limit.

Hell, that was a short record. Lets try this one. ' Music For Hanging Around.' Hemp Rope and The Trap Springers. The music on this will choke you up.

IGNATZ*** NANCE SHARE

Hoochaw, I like that cover. I always did wonder how ole Sandy Claws feels on the morning after.##But, Nance, I ain't Squink Blog. Honest, I ain't. Why that is almost as bad as calling a person G.M. Carr.## Ofcourse, if you move here to Seattle, I would be very willing to bribe you, even tho I ain't guilty.## Hey, You made me think back to that DuPont show. I really enjoyed that. Too bad that there isn't more shows of that type around. Twould make teevee better and more enjoyable. Of course, my favorite program is 'Hucleberry Hound', he's the greatest.##A real good ish of IGNATZ, Nance. Always enjoy it.## Times getting short, as I said before, I want to get BOG finished to-night and run off to-morrow. So I am afraid a few of the zines are going to get short-changed.## So anyhoo, will comment on yours earlier next time... Just remembered the next ish of BOG will be done whilst I am on vacation. No one will get shortchanged then.

Another record coming up. 'Music to Play Monopoly By'. Wally Weber and his Loaded Dice. Always a winner.

VONSET*** Ray Schaffer.

We had very good weather around here in '58. I hope that repeats this year.## I saw an interesting item in the paper the other day. It seem that there a chap observing the weather forecasters. He checked their forecasts (and their single ones too) and kept tract of them. The results of his survey have just been made known. It seems that the Seattle weather man is correct 19% of the time. The weather expert in Portland is correct 18% of the time. These are weather experts?## This makes me think of the future when surveys will be conducted to find out what surveys are being surveyed. This in turn will lead: to polls, being taken on what survey is like best. Gad, this will then lead to the Survey of the Month Club. Banquets will be given to honor the best surveys of the years with little glod plated statues given out, but then things will take a turn for the worse. The racketeers will take over the surveys and give a crooked count, of course this leads to.... A congressional hearing to probe the surveys for evidence of giving out of phony surveys. This will lead to surveys being banned in the country. The next step is obvious, one by one little shops will open up where if you know certain people, you will be able to get bootleg surveys. Eventually, surveys will be legal again and the whole damm circle will start all over. How is that for commenting on VONSET, Ray?

Friends, do your friends hide when you come around? Did you get fired today? Has your spouse run of with a visiting bottle labeler? Have you children run away to join FAPA? Do these and other trifling little problems get you down? Then you need 'QUICKIES'. QUICKIES is a new scientific discovery that will help get rid of your problems easily. Take one with a glass of water and you troubles will be over forever. Remember, QUICKIES are endorsed by The Undertakers of America.

Have one more record, so I will put it on now. It is ' Music to Read SAPS Mailings By the artist, Oh Ee and his 35 Egoboosters. I will be buying some new records in the future will tell you about them when I get them.

RETRO*** F.M. BUSBY

There is a nudist colony up in Vancouver. I shall prove it. Comes the next ish, I will have the inside story. I will prove that nobody is covering up. In other words, sir-rah, I will come clean.## Too bad that the tape we made New Years Eve didn't turn out.##Liked your SIC,SIC,SIC pichurs. Better then Jules himself.## The Twelve Day of Fanmas was highly enjoyable and this is one thing that I will make sure that I save for later years.## Thass all fur yo,bo.

And still they come. Ghad, won't this stack ever get lower.

FENDENIZEN*** ELINOR BUSBY

A real fine Atom cover. Hope that you use some more of them.## You are absolutely right about getting out of the practice of doing mc's. I have had any trouble this time . I am having trouble holding the comments down. If I had plenty of time, I could easily do a 30 page BOG, all mc's.## I have never digested any trollopes in fact I don't particularly care for them, I suppose that it is all a matter of taste.

THE GRIPE OF RAPP*** ART RAPP

The caption on the last BOG was intentional, a typical Blotto Otto pun.## I have an idea that Kee Lox manufactures the kee-rects that appear in the comic strips, but they don't manufacture Kee Bagels.## Hoo Haw, you sure know the way my mind (mind?) runs. I pulled that "Me Gan. You Jane." bit one day after meeting Megan. ## So you were ole Harmon's stnographer? I shall have to recount some of my experiences in the old constipated constabulary, one of these days.## Gosh, Art, there just ain't no justice at all, at all. Here you have a zine chock full of commentable items and I can devote only a few lines to you.## Be consoled in this tho, I thought that it was one of the best zines in the mailing.

Just a few more zines to go and I shall be finished. Finished, do you hear? FINISHED. Heeeeeeaaahaaahaa.

MEGANOTES*** MEGAN STUREK

See, you are becoming acclimated already, you have started to develop the webbed feet of the typical Seattleite. You know what a typical Seattleite is, they are the ones that are always running around in orbits.## Mighod, how lucky can a person be, you found a parking spot within TWO BLOCKS of the State Patrol. I usually drive by it, then park about two miles and have to take the bus back.##Chee, you have an ATOM cartoon,too. Veddy, veddy good.##

COLLECTER***HOWARD DEVORE

Hell, Howard, it looks as if my plans to attend the DETENTION have gone down the drain. Shux, and I did so want to see that Salvation Army store that you are sure to own by now.##Who did your illos this time? Some of them are purty good.##I am at a loss of words for some reason, can't even think of a good pun at this moment, ha, I can't even think of a bad one.##

*

I would join the Beat Generation but, hell, I can't seem to beat anybody.

Think that I will make this the last page. So here we go on the last lap.

WANSBURROWINGS*** N.G.W.

I wonder who did this cover.## I had trouble for quite awhile, trouble putting on weight,that is. I just couldn't put on any, in fact I kept losing it. One day, somebody told me that if I wanted to put on weight, I had better start eating. Now this sounded logical,so I went out and got a job. I am eating as recommended and you know what? I AM putting on weight.## I wonder if Battle of the Ghods will ever get finished.

Must be getting tired. I'm typoing all over the place. I suppose that I will have to clean it up later.

SATURDAY EVENING GHOST*** ROBERT LEE

I didn't have any doubt that Faubus would be elected.## Speaking of Faubus. Did you read that article in Reader's Digest where Faubus admitted that his stand on the school issue was a political stunt. After all, he knows what side his white bread is buttered on.##

CREEP*** WALLACE WASTEBASKET WEBER

Wallace, I have just reread CREEP and I don't have a thing to comment on.## Sorry that I couldn't have a Soames epic for in this coming mailing(this one that you have just recieved)(not the one that you are going to receive)(the one we just assembled)but expect a double lengther next time or surpin.

BOG***B.O.ME

Weber illos were the best thing in this.## Hey, get on the ball and turn out a big zine.

TEDDY BEAR*** TEDDY BEAR SIMS

Wha?

I am too pooped to go on,but I must. I have to finish my editorial and then this ish of BOG will have had it.

I wonder what ever happened to my ideas of having articles and stories in this hyar issue. Somebody must have swiped the remaining pages. Yeah, that's it. This is really a fifty page BOG but somebody swiped the last 38 pages. Now, I wonder who could have done that.

It has been a beautiful week,weatherwise,but now that the week-end is upon us, it has clouded up and it looks like rain. Pshaw, another week-end without golf.

This has been a great mailing but last minute word from the Busbys brings promise of a better one upcoming. Almost 400 pages and still a few days left in which more zines can arrive. Could I have another prediction coming true?

I think that I shall take a little space to welcome all the new members coming in this mailing. I notice quite a few familiar names. All I can say is,WELCOME. SAPS is getting bigger and better.

Am real happy about the way this ish of BOG turned out. Seem to be back in the Ole Blotto Otto type corn. This is the stuff I enjoy doing. I better enjoy doing it,it is all I can do. Well, will see you all via the next mailing.

Vaya Con Fanac.
