

POTTERY LEAFLET #4  
Operation Crifanac CXXLIII

-----  
It's Eney's fault  
-----

A Limerick Cycle on the subject of  
Things So SAP Can Do

Said a stefnist from well south of Me.  
"All this work on my comps may prove v.  
For I'll miss the next mlg.  
(Unthinkable flg!)  
Unless I send Bruce this, by ple."

Said the OE: "You should watch your time.  
Work or not, pub a SAPSine, for I'm  
Resolved those who've missed  
As delinquents to list,  
For lacktivity here is a crime."

The stefnist replied with a grin,  
"Wothell, either way then I'll win:  
For if I succeed  
It's a good SAPSish deed;  
If not, it's a Cultworthy sin."

A quick last-minute fill-in to keep  
Dick Eney from being pilloried for com-  
plete inactivity in the Sixth-Sixth SAPS  
Mailing. Did I succeed, or was this  
hour snatched from study for my M.A.  
comprehensives all in vain? It'd be  
just my luck to miss the mailing and  
get gigged on my comps to boot. Such,  
such are the joys. Wow, gang, you too  
can find complexity in fanac!
