Edited by: Grace and Don Lundry, 18 Karen Drive, Cherry Hill, New Jersey 08003

June 1975 Number 7

The Aussiecon Flyer is a reincarnation of the Heicon Flyer and is designed to provide the latest information on the status of the group flight to the 33rd World Science Fiction Convention. It is sent to all who have made a deposit or expressed an interest in joining the group flight.

THIS IS THE LAST AUSSIECON FLYER THAT WILL BE SENT TO EVERYONE ON OUR MAILING LIST. FUTURE INFORMATION WILL BE SENT ONLY TO THOSE WHO HAVE MADE A DEPOSIT TO JOIN THE GROUP FLIGHT. NEW GROUP FLIGHT MEMBERS WILL BE ACCEPTED UNTIL JULY 10TH, THE DATE WE HAVE TO HAVE FULL PAYMENT.

In this issue we are concentrating on the various means of seeing Australia. As you plan your trip, please remember that Australia is a big place and we will be there in the winter. If you want more information on seeing Australia on your own, please let me know. I will send you the information that you need or have the travel agent send it to you. Information such as train and bus schedules and maps is available but it is impossible to include them in this flyer.

TRAVELING IN AUSTRALIA

In a recent letter Robin Johnson gave the following suggestions and advice:

I hope everyone is aware that Brisbane is still a long ways south of the Barrier Reef. People who want to go to the Barrier Reef should be aware that the period immediately after the convention is school holidays, a very busy time for the resort areas. Each of the resorts has its own character. Heron Island, one of the few where scuba gear can be rented and recharged, is actually part of the Reef itself. It is about 40 miles offshore from Gladstone or about ninety minutes by F27 propjet (A\$28.40) to the north of Brisbane.

As for the trains between Sydney and Melbourne there are a few points to consider. The central railway station in Sydney is a mile or more from the Kingsgate Hotel, but the taxi fares would only be about \$1.00. Also the taxi transfer (should you decide to use it) from the Mascot airport to Kings Cross where the hotel is located, should only be about two to three dollars, as it is about four miles.

The train fares between Sydney and Melbourne have risen as of June 1, and are now \$20 each way economy with no discount for round trip. First class with berth will be about \$35 each way as a guess. There are three trains daily, two economy class ones, and the Southern Aurora (Roarer for short) is all first class with berths. The Roarer leaves at 8 p.m., arriving at 9 a.m. Since it is overnight, it has the advantage of saving on a hotel room.

The economy class train does not have sleepers and is not the most comfortable means of travel on earth. The seats do not have footrests like coach seats in American trains, and some do not recline, being in compartments like European trains. Smoking or no-smoking seats should be specified when booking.

Although the convention does not start officially until Thursday, August 14th, we are hosting a welcome party on the previous day. People arriving on the day train (The Intercapital Daylight) will not miss out, nor will the people flying in that afternoon. In fact they will undoubtedly find themselves given jobs to do.

We are planning a day trip on Monday the 18th to Ballarat and Soveign Hill, which is to cost \$6.00. This will return to Melbourne around 6:00 p.m., so people checking out of the hotel will have to either check out before the morning departure, or extend their stay. The trip arrangements are mentioned more fully in the latest Progress Report.

MOTORING IN AUSTRALIA

Traffic keeps to the felt side of the road in Australia, and cars normally have right-hand steering. Australia is the first country in the world to introduce the compulsory wearing of seat belts. This will also apply to visitors.

Licences: a). International Driving Permits recognised throughout and preferred. b). Appropriate overseas licences held by bona-fide tourists recognised throughout Australia.

Insurance: Third Party insurance, covering financial responsibility to a third party is essential. Foreign insurance policies are NOT valid.

Since the last Aussiecon Flyer was typed, the rates for rent-a-cars has increased. The following rates (in U.S. dollars) are for unlimited mileage for seven days.

Other discount airfares are also available but the saving does not seem to be as great, especially if you want to cover a lot of territory.

AUSTRAILPASS

The railways of Australia now have an Australia-wide tour ticket known as "Australipass" which is available to overseas visitors. It entitle the holder to unlimited first-class travel (or economy class if first class is not available on any particular section) on the Government Railways of Australia. The cost of the ticket will cover the base rail fare and seat reservations. Sleeping berth and meal charges will be additional. A fourteen day pass is approximately \$U.S.94.00. A twenty-one day pass is approximately \$U.S.147.00

If you want more complete information on any of these means of travel, please drop me a note and I will see that you receive more information.
