~~the~~ FA LEAN-TO

A PROBLEMATIC PUBLICATION

#1

PRINTED IN HASTE

The statement in FA that there was a shortage of Cunningham's mag was in error. Maybe he counted wrong, but it turned out there were plenty. However, we reiterate our plea for about sixty copies, for a number in this mailing who thought they were sending a few extras didn't. Maybe they counted wrong too. Anyhow, there should be a leeway for that sort of thing so nobody gets missed, even unintentionally.

We have here a nice sized mailing again -- as large as that of last June. And contrary to the June mailing, they are good-sized mags, this one being the only single-sheeter. While the mailing is late again, a good half of it arrived after the deadline, so the lateness seems well warranted. We don't know just how long the Post Office will take to get this to you, but if it is VERY late, no doubt the Xmas rush may be blamed.
