"HE SAID".

Being the first of a series of sheets produced by Ron. Holmes, from 32, Rockfield Rd. Liverpool 4. appearing at such times as HE thinks expedient. Buplicated and distributed by J.M. Rosenblum. "YOU GET THE DOPE , S I GET HIM". F. J. Ackerman. U.S.A. "I have recently shaken hands with H.G. Wells!! The experience, if you will pardon the pun, has left me a shaken fan. Behold, I even refrain from Ackermenese, so intent I am upon my subject! Julius Unger. U.S.A. "As you notice the date on the Srd. issue of COMET is Mar. instead of Fer. This was done in keeping with the dates of the other mags, on the stands so that COMFT would not Look old. The magazine is not skipping a month and is still monthly." W.D. Veney. Aust. "Sydney fans staged a plitzkrieg in the Sydney "Daily Telegraph" Fifty-fifty Letterette Column recently. It began with a letter signed "Str" asking about the posibilities of an Australin professional Stf magazine. That was answered by someone 'no signed himself "Snubby", aggreeing with "Stf". Later "Planet's" letter was printed stating a few more facts on the subject. In the last letter managed to get in a plug for the Futurian Society of Sydney." Damon (the demon) Knight. U.S.A. "As you probably know by now, the Newarkon /Newark Convention/ has been abandoned in it's infancy. My rriend Don Thompson says that fan activity seems to pile up in certain cases, untill the fan i n 4. goes slightly off his rocker; result, Miskes and Moskowitzs. * Eric. F. Russell. Aust. * We're holding & convention in Sydney on Easter Sunday '41 let's hope the Sycon is a huge success." Bob Tucker. U.S.A. "The signs are looking worse and worse over here, and it wouldn't surprise any of us if we declared war on somebody or other within three months. Funny thing is, we can't make up our minds who to declare war on... Japan, Italy or Germany, Personaly, I think we will do much better to confine our efforts to attacking Siam, or someother place like that. We are about fit to fight an equal match with Siam. On second thought, they are kinda tough. Maybe we should concentrate on Monte Carlo, or Belgian Congo. W.F. Temple. : Lancs. " I'm thoroughly" browned off' with training now, and am in the final three weeks of it, ere a few days leave - and then posting. Said training is undeleivly intense, both physicaly and mentaly. Have been laying miles of cable today, and also trying to grasp the. complicated ditherings of an Artillary Field Battery 'deploying'. Tomorrow I have to deliver a lecture on Radio Communications. * Ron. Holmes. Lancs. " Would readers Clarke (Welling), Ellis (Barrow) and Syms(Beckenham) kindly answer that letter I sent 'em last year, or do I have to piead with 'em ???? Would Art Williams drop me a line whenever he has the time. Will those readers "no dislike this sheet gindly
