COURSE I ought to mention Gullivers Travels and the story of Cyrano de Bergerac about his flight to the moon. I don't know their exact dates --- but y time you will see that Science Fiction is guite old! (How did you like this article? Let us know, Ed.)

like the figtion its self, different from the general run. We just haw where Cummings has a new three part novel coming soon in ARGOSY.

Well see you the next time, good by. WWW
