For the 35th Mailing of N'APA

December 1967

IncuNebulous Publication 617.

Though He Might Be LESS HUMBLE

FOR THOSE OF YOU who thought you'd lost me, I regret to announce that I am still here and intend to stay here. Being the only Charter Member left in this merry muddle, I have both a position and a reputation to live up to.

Actually, if I were OE for the 33rd or 34th Mailing -- especially the 33rd, I'd have thrown me out for lack of pages. But no one was thrown out for the 33rd, and since no one was listed in the 33rd as owing pages the next mailing, no one could be thrown out in the 34th. I greatly approve of the return, in AA34, to listing people owing pages; herewith my contribution toward saving my membership. I'm sure a number of people would be delighted if I were to drop, and it is in keeping with my Image that I rob them of that delight.

LESLEIGH COUCH did an excellent job with Mlg. 34, considering the mess she was handed -- and even moreso, considering the fact that she was volunteered for the job by Woolston. I applaud, and suggest, Lesleigh, that you run for the job when you do have the time to spare.

THE N'APA TREASURY is exactly where everyone thinks it is: in my pocket. It is going to stay there until the OE is elected for 1968. The really funny part of this bit, with various and sundry people complaining about the treasury not being turned over, is that absolutely no one has asked me for it. Mind you, I'm not sure they would have got it -- it would have depended on who asked and in what manner -- but that no one thought to bother asking indicates something of the level of intelligence of those complaining.

I am keeping the treasury until the announcement of a new OE election results, because as far as I am concerned, I was removed from office illegally, and am under no obligation to surrender it until my term of office is over.

The matter of whether I was legally or illegally removed is now very moot. Until about April of this year, I was under the admittedly mistaken impression that dues had been extended for all NFFF members as a result of a Directorate action. By the time I found out I was mistaken, I wasn't able immediately to send in dues. This was between the March and June mailings, and by the end of May I had renewed my dues, and can prove it. So that when June's deadline came around, I was once more a legal and paid-up member of NFFF. But it was too late. A notice had gone out that all zines were to go to Woolston, and the mess degenerated from there. So be it. I am merely explaining, not arguing or looking for either recriminations or further blithering about a situation that is past discussion. Elect a new OE, and let's get on with the business of publishing N'APAZines. Oh, by the way, I am, of course,

running for re-election. My dues are paid up through 1968!! (If elected, I'll probably renew for another year immediately, just in case.) Remember, better that Bastard you know than the one you don't! I promise to be just as exacting in throwing people out for not having their pages in as I used to be, get the mailings out with the same speed as I used to, and do everything else I used to except let my dues lapse. (I'm an oddity in N'APA -- all the other ex-OEs have quit and are not interested in even re-joining, let alone running for office again!)

THAT AMENDMENT that was up for vote in March failed, by the way, and would have done so even without certain machinations by some of the 103% types. Those who voted in favor of it did so with an eye to getting new members, which they considered the APA needed badly. It appears it still needs new members, but without the amendment it is necessary for new members of N'APA to pay not only the \$1 N'APA dues, but the (at least) \$1.75 NFFF dues (which appear to be going up, according to recent in-print discussions.) So be it. I see by the roster in Mlg. 34 that N'APA has 25 members, 15 of whom owe 6pp in this mailing. Good Luck!! At least one -- Atkins -- has said he is not continuing. So we have 24 out of a specified limit of 40. Oh, well, NFFF APAs for the NFFFers, and all that...

JUST TO GIVE YOU AN IDEA of the amount of turnover since this APA began, let's look at the list of those who joined during the first 14 mailings: Of those who joined with the first mailing, (16 members) only Woolston, Hayes, and I are still here -- and the other two have been dropped and rejoined (Woolston was out twice.) Of those who joined with Mailing 2, Meskys is still here, and Kaymar. Alma Hill, dropped with Mlg. 10, is a retread. The other 6 are gone. And of the 44 people who joined between Mailings 3 and 15, NOT ONE is on our current roster! (I do not count Janie Lamb, as she was listed as a non-contributing member, beginning with Mlg. 8, so that, as NFFF Secretary-Treasurer, she would see the mlg's. She did not really join until very recently.)

The above information was obtained by comparing the list in G.M. Carr's GEMZINE from Mlg. 16 with the current roster. GM listed each member by the mailing with which he joined, and gave drop dates for those who had already left by Mlg. 16. One of these days the list should be brought up to date, but that would mean finding all my mailings and right now some of them are among the unavailable.

In any case, I think the point should be obvious. N'APA is barely eight years old -- OK, 8½. That only 13 members have remained with it for the last five years is somewhat appalling. SFFPA can do better than that, and it has a 20-member limit and has only been going for six years. As for SAPS and FAPA, the comparison is ludicrous. Part of the trouble, of course, is the 40-member limit. There are always so many openings that members don't care about staying in, since they can always rejoin with no difficulty.

I think the new OE, whoever he is, should consider a revised set of Bylaws, including a lowered membership limit -- 30 at the most -- as a start to shaping up N'APA. If it continues to slide downhill at the present rate, it will soon not be worth \$3 dues and 12 pages a year even from the completists.

You are, of course, quite at liberty to consider the above mere disgruntled grotching on my part; I am sure of this reaction from a few members, at least. But I, at least, am still here to do the grotching. I wonder who will be here to listen to me in another year?

IncNebulous Publications 341 - 620

The listing of IncNec Publications 1-230 was published in SPELEOBEM 23, April 1964, for SAPS mailing 67. The first supplement, covering No. 231-340, appeared the following year in SPELEOBEM 27, April 1965, for SAPS 71. There are quite a few to be listed for the past 2½ years.
