Nº 19.5

This flyer is intended to update the listings in SOTM 19. It has changes in OEs or their addresses, plus some new apaz we've found out about this year. Of course, this renders the index in SOTM 19 a bit out of whack, but c'est la guerre. Many thanks to Paul Lemman and Randy Byers for help in collating and distributing this mailing.

Not an apa, but an intriguing new publication designed to achieve many of the same goals. The semi-annual "Catalogue of Correspondence" contains listings which solicit letters from you. Each listing describes what the person wants to write about; many people have more than one listing. Unlike an apa, the resulting conversations are in private; but like an apa, the conversation's the thing. The "Catalog" is \$1; a 50-2ord listing is \$4. Check it out; you might enjoy it! (Stephen Sikora, 6/83)

This comics apa was created late in 1982; the February mailing, their fourth, had over 200 pages. It is devoted to all sorts of super-teams. Money appears to be handled on the account system, with \$4 being required to open; spec copies are available for \$1. (McClerman, 3/83)

Renton, Washington 98055		

Devoted to the New Teen Titans, this apa has been mentioned once or twice in the comic. Irresponsible inertia has prevented your editor from investigating any further, despite the CM being a near neighbor. *blush!* (NTT, 8/83)

This is the official apa of the Star Blazers Fan Club, concerned with the Japanese animated SF series, and has been mentioned in the club's zine. (3/83)

This is a fairly new "current-events and politics" apa, growing out of comics fandom. They're a small but feisty bunch, and worth investigating. (Moss, 2/83)
