I like ERG. This is what an old fashion fanzine is like where science fiction and science are at the heart of the editor's life.

The New England Science Fiction Association, Inc., P O Box G MIT Branch, Cambridge, MA 02139. Available to members and selected others. Published twice monthly except in December. Mimeo. It's a shame that all the energy and money couldn't be spent on something more memorable.

IZZARD

Patrick & Teresa Nielsen Hayden, 75 Fairview #2D, New York, NY 10040. Mimeo. Available for arranged trades, whim or \$5. #9 (Feb.87) 92 unnumbered pages. Good stuff like Greg Benford's trip up the Nile and Tom Whitmore's discovery of an original Crowley manuscript and Teresa Nielsen Hayden's collection of half-finished essays mix it up with Ted White's ill-considered "defence" of Walter Breen, of Boondoggle infamy. White all but confirms all charges. Considering, too, the anonymous sniping at me from Neilsen Hayden fanzines I have no liking for this fanzine.

Copies to all editors, i.e. Vincent, Avedon Carol/Rob Hansen (144 Plashet Grove, East Ham, London E6 1AB Great Britain )and John Harvey (~~43 Harrow Rd. Marsholton, Surrey SM5 1QH Great Britain~~). Quarto, mimeo. #4 (Spr,87) 28 pg. #5 (Sum,87) 28 pg. #6 (Nov.87) Regular columns from Walt Willis, Chuck Harris plus material from Langford, John Harvey and Maureen Porter. While a regular quarterly/bi-monthly fanzine, depending on how many co-editors are involved, which is good but the issues never seemed more than good. It's well worth getting but the individual editors have done better with their one zines.

#### THE ROGUE RAVEN

Monthly listings of scheduled book releases, convention listings, book reviews and lots of photos. Vol 8 #4 (Whole issue 88)(January 87) 46 pg two-color cover. #89 (Feb.87) 54 pg. #90 (Mar,87) 50 pg. #91 (Apr.87) 46 pg. #92 (May 87) 54 pg. #93 (Jun.87) 58 pg color cover. #94 (Jul.87) 54 pg two-color cover. #95 (Aug.87) 58 pg. #96 (Sept87) 52 pg. #97 (Oct.87) 46 pg. #98 (Nov.87) 58 pg color cover. #99 (Dec.87) 50 pg. Color cover. This is the newszine for me. It's typeset and printed in a lovely format, lots of photos, especially from the worldcons and of book covers. The book reviews are by Don D'Amassa who is about as levelheaded and consist as they come. Between the color covers, which are now regular and the layout this is a better looking fanzine than any of the prozines.

#### SECANT

Greg Hills (now at GPO Box 972 G, Melbourne 3001, Australia.) A4 Mimeo. Available for the usual. #1 (Jan.87) 20 pg. Personalzine. Greg reviews some books and tries to tell us all about his last few years hitchhiking about. #2 (Oct.87) 30 pg. More hitchhiking, Bandersnatch genetics and Psychohistory analyzed. #3 (Dec.87) 40 pgs. More hitchhiking ( four years on the road is a long time, fanzine reviews from a design point of view plus other articles. This is an impressive trio of fanzines and admirable productivity. Well worth getting.

Michael T. Shoemaker, 2123 N. Early St., Alexandria, VA 22302. #17 (July,87) 20 pg ditto. Personalzine discussing bushwacking trips, civil war books and other books of interest to Michael. A good zine.

#### SHANGRI L'AFFAIRES

Charles Lee Jackson III, editor. LASFS, Inc (address as before) 39 pg half-legal xerox. Club published genzine. Disorganized layout and weird changes in type distract from this zine. Glycer begins an Aussiecon II trip report, Ed Buchman notes racial problems in early Donald Duck cartoons and an episode guide for "Tales of Tomorrow" begins.

#### SHARDS OF BABEL

Roelof Goudriaan (now at Caan van Necklaan 63, 2281 BB RIJSWIJK (ZH), The Netherlands. A4 offset with tiny type. Available for \$10/6. European newszine, in English. #22 (Mar,87) 8 pg. #24 (Oct.87) 8 pg. Your best and about the only source for news from non-English speaking fandom.

model railroading, Cy Chauvin quests for Bruce, even tho he's never been to Australia, and more on films. This is a very good fanzine.

#### SIX-SHOOTER

Jeanne Gomoll (~~P O Box 1443, Madison, WI 53701~~), Linda Pickersgill (7a Lawrence Rd., South Ealing, London W5 4XJ Great Britain) & Pam Wells (24a Beech Rd., Bowes Park, London N11 2DA, Great Britain). 28 pg offset. Available for the usual or \$2 to TAFF. Second Printing (9/87). A TAFF bidzine produced by then-candidate Jeanne and two of her nominators. Each produced two article, six in all, hence the title. Jeanne's real sercon, writing about the denial of feminism's presence in 70s SF and fandom and the craziness of being a state employee. Linda is turning into her mother while Pam dreams of living the fannish life. This is a very good fanzine.

#### SKUG

Gary S. Mattingly, 7501 Honey Court, Dublin, CA. 94568. Available by whim. 24 pg. Xerox. #5 Personalzine.

#### THE SPACE WASTREL

Michelle Muijsert, Mark Loney (now at P O Box 428, Richmond, Vic 3121, Australia) & Julian Warner. Available for the usual, trade copies to Muijsert/Loney and to Warner whose address I'm uncertain about. A4 Mimeo. Vol.2#5 (Dec.86) 70 pg. For all those pages all that stands out now is Loney's review of The A-Team as myth. #6 (Feb.87) 38 pg. #7 (Apr.87) 44 pg. Healthy lettercols, long fanzine review columns, lots of assorted articles. It's bi-monthly appearance was making this a lively fanzine.

TAU CETI/ APOCRYPHIA

Larry Antony Dunning, P O Box 111, Midlands 6056, Australia. Available for the usual or \$A1.(Winter,1986) An Ace Double fanzine. One side is a 19 pg role-playing zine. The other side is a 61 page narrative telling you more about Larry Dunning than you would ever want to know. The zine is xeroxed onto A5 paper.

THE TEXAS SF INQUIRER

Pat Mueller, editor. F.A.C.T., P O Box 9612, Austin, TX 78766. That's the corporate address, suitable for subscriptions. Pat is no longer editor of TSFI. Look in the 1988 section for a listing with the current editor. TSFI won the Hugo in 1988 for Best Fanzine best on material published in 1987, which would be these three. Pat is currently publishing "Pirate Jenny" see the 1988 listings for its address. #20 (Feb/Mar, 1987) 36 pg. mimeo. Reduced print. Pat, drawing on a professional background produces a zine that looks more like a professional newsletter, three column-format, border tape, enlarged headlines and such which sets it apart from the average fanzine. After a large section devoted to F.A.C.T. business meeting minutes is the first of Allan Varney's "Our 21st Century Writers" a post-holocaust look at the world if SF authors took over. Who says faaanfiction is dead?

This is followed by a reprinting of the last "Cheap Truth" and Alan Laska on the best and worst of TV Sci Fi. Book reviews and con reports finish out the issue. #21 (Aug/Sept., 1987) 26 pg mimeo. F.A.C.T. was unhappy that TSFI didn't appear with better regularity. But quality takes time. This issue concentrated on Armadillocon with a selection of articles on the con past and present. Bob Tucker discusses the idea of rating conventions and book reviews fill out the issue, leading with a lengthy "Better books of 1986" by Willie Siros. #22 (Oct/Nov, 1987) opens with a Teddy Harvia cover and two color mimeo printing on the inside. 26 pg total. A.p.McQuiddy interviews Bill Gibson, Allan Varney presents the second of his 21st Century Writers, and reviews finish out the ish. The reviews are generally a few paragraphs long or longer and pretty good.

THIS NEVER HAPPENS

Lillian Edwards (1 Braehead Rd., Thorntonhall, Glasgow G7U 5AQ U.K. and Christina Lake (47 Wessex Ave., Horfield, Bristol BS7 0DE, U.K.) #10 (Aug.87) 48 pg A5 offset. Available for the usual.

An excellent zine with articles by Lillian and Christina, Mike Christie and Sherry Goldsmith, who pub their own zine) Simon Ounsley and Bob Shaw. Christina and Sherry talk about food, BoSh mets disaster test-driving a word processor, Lillian looks at recent SF movies and Mike tells of the time he had chimps and lodgers under the same roof (think: "Bringing Up Baby") and Simon defends idleness — at least on occasions. There is also a lot of art, somewhat uneven in quality, but then British fandom has so long discouraged fan art that it has to be hard to find any fan artists.

(There is a danger with deluxe equipment. If you forget to turn off some fancy feature you end up with something like the above paragraph. How embarrassing.)

#### THRUST

D. Douglas Fratz, 8217 Langport Terrace, Gaithersburg, MD 20877. Offset. Available for 4/\$8. #26 (Spring, 1987) 36 pg. columns from Bishop, Sheffield, and Platt, an interview with Donaldson and David Bischoff chronicles life with Stardate magazine. #27 (Summer, 1987) Columns from Bishop, Geis, Shirley and Benford. Greg Bear is interviewed. #28 (Fall, 1987) Lawrence Watt-Evans denounces cyberpunk, Walter Tevis is interviewed, Janrae Frank discusses feminism in SF (or its lack) plus the usual assortment of reviews. A fine serconish semi-pro fanzine.

#### THYME

Peter Burns, Clive Newall and LynC, P O Box 4024, University of Melbourne, Vic 3052, Australia. Available for news, art or subscription. It says here 10/\$10 but this is also dated July, 1987 so prices may have changed. #62. 18 pg A4 mimeo. The newszine of Australia. This is the only issue I have ever seen and got probably only because it lists the results of the 1987 TAFF race which I was in and lost disasterously. Also the Ditmar voting, con listings and so on.

#### TIGGER

Marc Ortlieb, P O Box 215, Forest Hill, Vic 3131, Australia humorous zine since discontinued. #22 (Oct. 1986) 27 pg A4 mimeo. #23 (December, 1986). #24 (February, 1987) 25 pg A4 mimeo. #25 (April, 1987) 21pg A4. Mimeo. #26 (June, 1987) 27 pg. A4 Mimeo. The contents was quite varies with humorous stories and serious discussions about humor abounding. The last issue, #26 was serconish in tone with a long article on SF and predictions and another on the history of Cordwainer Smith's Instrumentality.

CURIOUSLY, FRATZ PROMISED A GREG BENFORD ARTICLE, "THE SOUTH AND SCIENCE FICTION" FOR THE NEXT ISSUE AS THIS SOUNDED A LOT LIKE THE ARTICLE I HAD PUBLISHED IN STICKY QUARTERS, AND FOR WHICH I HAD SPENT A LOT OF TIME TRANSCRIBING THE ORIGINAL TAPED SPEECH, I ASKED THAT IF IT WAS THE SAME ARTICLE THAT I AT LEAST BE GIVEN CREDIT FOR PRIOR PUBLICATION. I NEVER HEARD BACK FROM MR. FRATZ.

EDITORIAL

According to the table of contents this is supposed to be an editorial. It's kind of a funny place to put an editorial -- at the end of a fanzine. But then I never know what to say in one anyone. When I work on a fanzine I tend to concentrate on what I'm doing at the moment without thought to overarching questions like 'why has it been two years since the last issue?' or 'why this format?' And afterwards it just seems like the zine will speak for itself and further explanations or excuses are hardly needed. But I guess I should explain a few things, and if I'm lucky they'll be answers to questions you have.

It's been two years since the last issue for no better reason than that I haven't felt like doing WoFan. I had forgotten in the two years since the last issue how much medium is involved in typing out a WoFan: names and addresses, sizes and formats, availability, much of which is not organized in the fanzines in a clear and readily apparent format, if mentioned at all. British fanzines are notorious for operating under the assumption that you know why you got that zine, or even who's it from. They're the only nation in the world that habitually fails to include a return address on envelope. It's like they have perfect confidence that the postal service will deliver their letter or fanzine to who ever it goes to no matter how poor the handwriting or insufficient the address. But I digress.

It's hard to believe that when I first started WoFan I was publishing issues monthly. (I'm also surprised I could find the postage...) But it was all new then. Now WoFan comes out whenever I find the urge/guilt/time/whatever necessary. This particular issue started, I think, while waiting for letters on SQ18 to come in. The holidays were coming up, which for me this year would be two four-day weekends with Denise working. I got about half thru 1987 during the holidays, then remembered some apa deadlines falling the first of February, put WoFan aside, just couldn't bring myself to pick up again later in February. that's why there's the shift to a different printer for the 1988 listings. For our anniversary last year Denise got me this gizmo called a TI-74 Basicalc calculator from Texas Instruments. It's a pocket computer,

8K memory, qwerty keyboard, all in a case smaller than a cigar box. And it has this thermal printer built just for the TI-74.

I find that I tend to use my free time at work more productively than my free time at home. Less distractions I suppose. So I figured if I took a few zines in with me each day I could type up the listing and in a week or two be done with it. And that is pretty much what happened. I made something of an effort to finish the '87 zines with this typer, pasted up the pages and thought I was pretty much done late in March. All I'd have to do was proofread and type up an editorial. About a month later I looked at the paste-ups and discover a horrible secret about thermal paper --something about the solvents in glue fades the print. I tried to highlight the faint areas by hand but quickly realized that wasn't going to work, and retyped all the 1988 listings again. I noticed that it went a lot faster when I had only to retype. And this time I made sure I got the masters shot down as soon as the pages were pasted up.

But these pages have been sitting around here for most of May with nothing being done to them because I'm been waiting to get my electro stenciler fixed. It died last November and, having heard that Gestetner service personal were billed at \$100/hour for labor, knew I was going to need a bit of money before taking the Gestafax in. When I finally found the money I discovered another horrible truth -- Gestetner refuses to work on model 455 stencil cutters. They're so obsolete that they don't stock the parts, they don't even want to look at them. If I had known that I wouldn't have typed this zine up in this format.

I don't know why I decided to use this quarter-legal size format. I have done some issues of Sticky Quarters this size, back when I had a ton of legal length paper -- and access to a free copier. I guess, because people don't usually use this format it just seemed like

the thing to do. Of course it meant that I had to electrostencil these pages to print them, and with the electrostencil out this means I'll have to xerox this zine, an expense I wasn't looking for and don't relish.

I should make with a few editorial type comments before running out of space. First of all, despite the title, WoFan doesn't pretend to be a complete listing of fanzines. That's probably not physically possible and with my reduced frequency of publication there are a lot of monthly clubzines that wouldn't want to trade for such an infrequent item. WoFan is nothing more than a listing of the zines I've recieved. There were 120 in 1987 and 119 in 1988. Noreascon mentions that they received something like 158 different titles for nomination. I haven't the foggiest where the other 39 titles came from. I admit it would sure be curious to see a listing of all the zines nominated, just to know who they are.

"The usual" means that a zine is available in exchange for a trade of your fanzine, a letter of comment, or a contribution of art or an article.

Paper, unless otherwise noted is assumed to be 8 $\frac{1}{2}$  by 11 (North American standard). A4 is standard everywhere else. It measures roughly 8 by 12. Quarto is an old commonwealth size roughly 8 by 10, and favored by some traditional-minded fans. A5 is A4 folded in half. Half legal is legal paper(14 inches) folded in half. "Pb" size, like this zine is legal paper folded in fourths. "mini-" is letter size paper folded in fourths.

One area of publishing overlooked in these pages is my own. For the record in 1987 I published WoFan #27/28 (16 pg) and

Sticky Quarters #17 (12 pg.). And in 1988 I published: Sticky Quarters #18.

That's my fanzine. Hope you've enjoyed it.
